

# Trash Collection Services

Please note that Newtown Township does not facilitate the collection of residential or commercial trash. Residents and businesses need to hire a company that will dispose of trash based on their needs.

We suggest asking your neighbor who they use, or you can look companies up on the internet or in the phone book. Some of the collectors who work within Newtown Township are listed below. Please note that this listing is not intended to be a comprehensive list of who you can choose, and we do not endorse one company over another. Our only stipulations are that whatever company is chosen abides by all requirements found in the *Newtown Township General Code*.
